TOPS LOCATION HANDBOOK IN STATION NUMBER ORDER

TOPS LOCATION HANDBOOK IN STATION NUMBER ORDER - BR 2489/9

ISSUED JAN 1991

Director of Operations,
Macmillan House,
Platform 1,
Paddington Station,
LONDON W2 1FT.

FMS/1/07

TOPS LOCATION HANDBOOK IN NUMERIC ORDER

INTRODUCTION

This book is printed in numeric order and lists all locations giving all the necessary information to determine in which responsibility file a location belongs, which Area Manager is responsible for the location and the TOPS description of the location - "Abbreviated Station and Customer Name" which will appear on TOPS generated computer output.

The information listed under the various column headings is as follows:

1. Location number, Location and Customer column headings are self explanatory.

2. Terminal Type (TMLTYP)

This code denotes the type of location and the facilities which are available:

A - A BR Parcels Terminal which provides facilities for the acceptance and forwarding of Rail Express Parcels traffic, either at which parcels trains start or terminate, or where parcels vehicles (including postal vehicles and newspaper vans) can be attached and/or detached.

B - As 'A' but privately owned.

C - A BR operated freight terminal or Specific Users terminal handling coal, coke or patent fuel traffic.

D - A Departmental terminal receiving or forwarding freight traffic (free on rail).

E - As 'P' but where BR is also a User in that the facility exists for detaching a cripple or engineer's vehicle. These locations can also be regarded as BR locations for TOPS Train Reporting purposes.

L - A BR operated freight terminal or Specific Users terminal handling merchandise traffic and with cranage and cartage facilities.

M - A BR operated freight terminal or Specific Users terminal without cranage and cartage facilities, but at which handling and/or cartage may be provided exceptionally by prior arrangement with the Area Manager responsible.

N - A BR operated freight terminal or Specific Users terminal with no provision for handling and/or cartage facilities.

2. Terminal Type (TMLTYP) Contd.

P - A customer siding (freight), where the customer identified by 'CUSTOMER NAME' is the sole user of the location.

S - A BR operated freight terminal or Specific Users terminal open for the receipt/despatch of specified merchandise traffic only.

T - Train Load traffic only - Not to be used alone but in combination as applicable with any of the above TMLTYP codes.

W - Station/depot with wagon weighbridge facilities.

X - As 'P' but where there is one or more additional firms not identified by 'CUSTOMER NAME' using the location.

BLANK - Purely operating locations e.g. Marshalling, Sorting, Stabling, Refuge etc. sidings, together with plain line Passenger Stations, Junctions etc. required for TOPS reporting purposes.

3. Regulation or Restriction Code (REGULN)

A code to indicate a specific type of traffic at a TMLTYP 'S' location or that traffic destined to this location is subject to a degree of regulation which must be observed.

Codes defined as follows:

A - China Clay

B - Rock Salt

C - Scrap Metal

E - Earths and Stones

F - Fertiliser

3. Regulation or Restriction Code (REGULN) Contd.

M - Motor Vehicles

P - Pig Iron

R - Refer to the "Permanent Regulation and restriction Governing the acceptance and forwarding of Freight Train Traffic" ON TOPS DATABANK (SYNONYM 'RESTR') - Procedure 980.

S - Shipment Traffic

V - Fruit and Vegetables

4. Responsibility station (RESPSTN)

This is the location number of the Area Freight Centre responsible for reporting events ocurring at this location.

5. Area Manager Responsibility

This is the Area Manager responsible for the location.
